Are we a Democracy, a Republic, a Plutocracy or something else? Corporations now have the same rights as individual citizens. How does that effect democracy? Is there a way people can maintain control over their leaders? Are Capitalism and Democracy compatible and how do lobbyists effect the relationship? Is Democracy subverted when insurgent candidates are excluded in forums with establishment politicians? Would mandatory voting enhance our Democracy? What has happened to our constitutional system that has allowed it to become convoluted and corrupt?
